Visa: H1B Transfer Available | Full Stack Developer

SUMMARY

Full Stack Software Engineer with 5+ years of experience in building scalable web applications and backend systems using Java, Spring Boot, Angular, and AWS. Skilled in developing microservices architectures, cloud deployment, and REST APIs. Certified SAFe 6 Product Owner/PM, with strong Agile delivery and stakeholder collaboration. Currently on an active H1B visa and open for transfer.

TECHNICAL SKILLS

- Languages: Java, SQL, PL/SQL, HTML/CSS, JavaScript, TypeScript
- Frameworks: Spring Boot, Spring MVC, Hibernate, Angular 7–9, JSP, Thymeleaf
- Web Services: REST, SOAP, Apache CXF, JAX-RS
- DevOps & Tools: Git, Jenkins, Maven, SonarQube, JIRA, Splunk, Concourse
- Databases: Oracle, MySQL, MongoDB
- Cloud & CI/CD: AWS (EC2, S3, RDS, Lambda, Elastic Beanstalk), Jenkins, Docker
- Others: Agile/Scrum, SAFe 6 Certified, Selenium (Basic)

PROFESSIONAL EXPERIENCE

TurningPoint Global Solutions, MD — Software Developer

Feb 2020 – Present

- Built and maintained microservices using Spring Boot, integrated via REST APIs.
- Developed frontend components using Angular 9, HTML, and Thymeleaf.
- Migrated monolithic apps to microservices architecture using 12-factor app methodology.
- Deployed services on AWS Elastic Beanstalk, with RDS & S3 for storage and configuration.
- Created reusable REST clients, integrated with Eureka Server & Spring Config Server.
- Implemented CI/CD pipelines using Jenkins, and logging using Splunk.
- Built lambda triggers to automate backend operations.

Washington State University, WA — Associate Research Developer

Mar 2018 – Jan 2020

- Designed and developed backend APIs using Spring Boot and Hibernate.
- Built account lookup service using REST for internal systems.
- Automated test cases with JBehave and implemented AutoSys batch jobs.
- Worked on Oracle PL/SQL, wrote queries, triggers, packages for enterprise systems.
- Developed external user page using Spring MVC and frontend in JSP/jQuery.

Dell Technologies, Bangalore — Software Analyst

Jun 2013 – Nov 2017

- Developed backend modules using Java, Struts, Hibernate, and SQL.
- Built calendar module in project management tool (PMT) using J2EE.
- Wrote Selenium test scripts and contributed to automation framework.

EDUCATION

- M.S. in Computer Systems — Washington State University, WA, USA
- B.E. in Electrical & Electronics — VTU, Bengaluru, India

CERTIFICATIONS

- SAFe 6 Certified Product Owner / Product Manager
- Databricks Generative AI Fundamentals
- AWS Solution Architect Associate – In Progress
